

Stainless is more with Just Grip-Rim® Plus sinks.

Cut your sink installation costs by
50%

With Just Grip-Rim® Plus sinks you'll install in 1/2 the time, saving you money and effort.

Avoid installation problems and reduce installation costs by 50% with Grip-Rim Plus from Just Manufacturing, the premier name in commercial and residential stainless steel sinks. Installing the Grip-Rim Plus clip system is as easy as 1, 2, 3.

For over 40 years and millions of installations, the Grip-Rim Plus is the only proven top-mounted installation to save you money.

1 Nail Spring clips to the edge of the counter top

2 Apply caulk to underside of the bowls rim

3 Press down with both hands to snap in place

Simply nail in clips to edge of counter cutout, apply caulk to the underside of bowl rim and press sink down. The exclusive spring tension clip actually pulls and holds the sink in place. Grip-Rim Plus is space efficient, allowing you to install the largest sink possible while eliminating concerns such as narrow installations front-to-back bowls, stubborn corners and dimpling. "J" clips are available for tile or unique applications.

Grip-Rim Plus sinks are offered in over 800 models ranging from 12" x 15" to 22" x 73". All sizes feature 18 gauge Type 304 Stainless Steel construction with a durable and attractive hand-blended finish and a sound deadening coat on the underside.
